PROVINCIAL SECRETARY.

PART IV.

"WATER CLAUSES CONSOLIDATION ACT, 1897."

WHEREAS the Corporation of the City of Nelson has applied, under an Act to amend the "Water Clauses Consolidation Act, 1897," being chapter 44 of the Statutes of 1900, for a Certificate, in pursuance of the provisions of section 126G, to enable the Municipality to proceed with their proposed undertaking of the construction of a Hydro Electric Power Plant, on the south side of the Upper Falls of the Kootenay River, about ten miles west of the City of Nelson, for the purpose of increasing the supply of electric light and power within the limits of the said City; and

Whereas the Municipality has filed with the Clerk of the Executive Council the documents required by section 126E of the said Act, and plans, showing the intended situation of the undertaking and works proposed by the Corporation:

(1.) THIS IS TO CERTIFY that the undertaking as submitted, has been approved, and that the same is as follows:—

To construct the necessary works and buildings on a parcel of land known as Lot 5,282, Group I, West Kootenay District, and situated as aforesaid, for the development of power by the use of 50,000 inches of water, which has been duly recorded, to be taken from the Kootenay River, at a point 200 feet above the Upper Falls of the said river, by means of a canal,

and to be returned immediately below the said Upper Falls.

It is proposed to construct a power plant for an eventual capacity of 5,000 horse-power, also a canal, to be formed partly in the river bed with a masonry retaining wall, and partly by an open cutting that will lead to an open masonry forebay. These works will have a capacity of 5,000 horse-power in the initial construction, the machinery to be added as the conditions require. Through the forebay three nine-foot steel supply pipes, each pipe being capable of furnishing water to develop 1,667 horse-power, will be placed. It is proposed to instal only one unit at present, the water-wheels in connection therewith, to consist of a pair of 42-inch horizontal turbine wheels, encased in a steel penstock and discharging through a central draft tube. The generator will consist of a 3-phase 60-cycle revolving field, generating at 12,000 volts, at which voltage the current will be transmitted without the use of step-up transformers to the sub-station at Nelson.

The current will be transmitted over nine and one-half miles of No. 4 circuit, medium hard-drawn, copper wire, to a sub-station in the City of Nelson, where the voltage will be stepped-down to 2,300 volts, for distribution to the street circuits for light and power purposes. At the sub-station the current will also be transformed by a rotary transformer to 550 volts, direct current, to supply power to the street railway system now operated by the City.

(2.) And this is further to certify that the Corporation propose to proceed forthwith with the construction of the hydro-electric plant, at an estimated cost of the whole undertaking of \$145,000, and that provision for borrowing this sum has been made by the passage of a by-law, known as the "City of Nelson Electric Light Extension By-Law, No. 123," which came into force on the 23rd day of December, A.D., 1902. And the time within which the said works shall be in operation is fixed at two years from the date hereof.

(3) And this is to further certify that the Corporation shall have, hold and exercise such rights, powers, privileges and priorities as shall be requisite for the proper carrying out and completion of the undertaking aforesaid.

Dated this 29th day of March, 1905.

CHARLES WILSON,
Clerk, Executive Council.

In the BRITISH COLUMBIA GAZETTE, and in one newspaper published in the District affected, or if there be

no newspaper published therein, then in a newspaper in the next nearest District in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition, and copies of such notice shall be sent by the parties inserting such notice to the Clerk of the House to be filed amongst the records of the Committee on Standing Orders.

57. No Petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any Report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no Motion for the suspension or modification of this Rule shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committees charged with consideration of Private Bills, who shall report thereon to the House. And if this Rule shall be suspended or modified as aforesaid the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the Petition has been received after the time hereinbefore limited, shall in either case pay double the fees required as herein mentioned, unless the House shall order to the contrary. Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight days before the opening of the Session, a printed copy of such Bill, a copy of the Petition to be presented to the House, *together with the notices published.* At the time of depositing the Bill, the applicant shall also pay to the Clerk of the House a sum of three hundred dollars. If a copy of the Bill, Petition and notices shall not have been so deposited in the hands of the Clerk of the House at least eight days before the opening of the Session, and if the Petition has not been presented within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the fees paid shall be returned.

60. Before any Petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge, is received by the House, the person or persons intending a petition for such Bill shall, upon giving the notice prescribed by rule 59, also at the same time and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a draw-bridge or not, and the dimensions of the same.

61. All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the clauses of the General Acts relating to the details to be provided for by such Bills:—Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. Bills which are not framed in accordance with this Rule shall be re-cast by the promoters and re-printed at their expense before any Committee passes upon the clauses.

65. All Private Bills shall be prepared by the parties applying for the same, and printed in Small Pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring 10 $\frac{3}{4}$ inches by 7 $\frac{1}{2}$ inches. There shall be a marginal number every fifth line of each page; the numbering of the lines is not to run on through the Bill, but the lines of each page are to be numbered separately. Two hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first reading. If amendments are made to any Bill during its progress before the Committee on Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

By new Rule 65A, passed on the 2nd April, 1901 (see Journals, 1901, page 58), a model form of Railway Bill is adopted.

By 65B all Bills to incorporate or amend Bills incorporating railway companies are to be drawn in accordance with the Model Bill.

The provisions contained in any Bill which are not in accord with the Model Bill shall be inserted between brackets.

Any exceptional provisions that it may be proposed to insert in any such Bill shall be clearly specified in the notice of application for the same.
